

WELCOME TO MY POL

EDU 600

AUGUST 14, 2020

Olusola Oluwa

Through this challenging time and trying to make normal out of what it is normal for us at the moment

We decided to come together as a collective mind working towards social change
We strive for building a **positive relationship** and **community** which allows us to **appreciate** each other's uniqueness

We embrace a safe shared place for **vulnerability** and **discomfort** which became an **Inspiration** for others in sharing their stories

And as we are ready to take this journey together as aspiring leaders

We seek in creating a society/culture that promotes equitable learning for all,
“Ask”, **listen**, and understand the need of students and the community we are looking to serve.

space to grow
